FIBCS / BULK BAGS

We specialize in crafting Flexible Intermediate Bulk Containers (FIBCs), also known as bulk bags, totes, or super sacks, designed precisely to your requirements and specifications. As one of the leading manufacturers of flexible intermediate bulk containers and a member of FIBCA (Flexible Intermediate Bulk Container Association), we offer tailored solutions globally, catering to a diverse range of industries. Four Star Plastics has in depth custom capabilities to create any type of bulk bag to your specifications. FIBCs are classified into four main types according to the level of static protection they provide. Along with the 4 types of FIBCs, Four Star Plastics specializes in Baffle Bulk Bags which contain reinforced corners to bolster the bulk bag structure.

TYPE A BULK BAGS

- The most common and industry standard for storing and transporting goods in all types of industries
- Do not feature any protection against static electricity
- Manufactured with 100% virgin uncoated polypropylene
- Circular bag construction with 4 reinforced lifting loops for easy transportation
